## Trades Women Building Nations Conference

This will be the ninth national multi-craft, union-sponsored conference held in the U.S. The official conference sponsors are North America's Building Trades Unions (NABTU). In addition, many international unions, industry suppliers and contractors are making donations to support the conference.

It is often difficult for women to work in the trades because they find they are the only woman (or one of a very few) women out on the jobsite. Being in a room with 2,000+ other tradeswomen who have a similar experience, is key to helping women break the isolation they may feel at work.

**When:** October 4-6, 2019

**Where:** Hilton Minneapolis Minnesota

**Website:** <http://nabtu.org/twbn/>

**Download:** [Conference Flyer and Registration](#)

## Finishing Trades Institute Free Career Training

5 Week FREE Craft Training Course in the following Trades:

## International Brotherhood of Boilermakers Newsletter

A boilermaker is a tradesperson who manufactures, installs, and maintains boilers, tanks, and closed vats. Boilers heat the liquid, usually water, that is used to generate electric power or provide heat to buildings, factories, or ships. Tanks and vats are storage containers that hold chemicals, oil and other liquids.

Boilermakers are responsible for the maintenance and repair of boilers that may last for over 50 years. This includes ongoing inspections and the replacement of valves, fittings, feed pumps, and other boiler components.

To learn more about becoming a Boilermaker, please click on the link below:
